

# HdL ECONsolutions

In these challenging times, the HdL ECONsolutions team has been assisting some of our clients by creating “**COVID-19 Business Information**” webpages to share valuable information to their small businesses regarding updates on the COVID-19 pandemic, links to other government agencies and resources for access to capital (e.g. SBA loans and grants, EDD insurance claims and microloans).

Additionally we have also created an “**Open for Business**” webpage for some cities to list essential businesses (grocery stores, drug stores and restaurants) that are *open* during the shelter in place period.

These webpages have proven to be effective public information tools for cities to work with their struggling business communities in these challenging times.

As a client of HdL, we wanted to offer these services that may be of interest to your community. Prices for these services are:

- Development of “**COVID-19 Business Information**” webpage is \$2,000.
- Creating the “**Open for Business**” webpage will be on an hourly basis of \$125/hour because the time to do the work will depend largely on size of a city’s business community and effort needed to secure information on who is open, hours of operation and specifics on business offerings now available.

Please let me know if this service is of interest to you. Be safe. I can be reached directly at 951.233.0414 or by email at [bfoster@hdlcompanies.com](mailto:bfoster@hdlcompanies.com).

Thank you,

**Barry Foster**, Principal/Managing Director
